 पी डी आई इल PDIL	INVITATION FOR PRESENTATION AND DISCUSSION ON TECHNOLOGY FOR SETTING UP OF SULPHUR COATED UREA PLANT IN INDIA	DoF-SCU- INVITATION/001	0	 सत्यमेव जयते
		DOC.NO.	REV	
		Page 2 of 4		

Background

The Department of Fertilizers (DoF), under the Ministry of Chemicals and Fertilizers, Government of India (GoI) is vested with the main objective of ensuring adequate and timely availability of fertilizers at affordable prices for maximizing agricultural production in the country.

The main functions of the Department include planning, promotion and development of the fertilizer industry, planning and monitoring of production, import and distribution of fertilizers and management of financial assistance by way of subsidy / concession for indigenous and imported fertilizers.

In line with the Government of India's objectives of addressing **Sulphur deficiency in Indian soils** and improving **Nitrogen Use Efficiency (NUE)**, the Government is exploring various pathways for promoting **Sulphur Coated Urea (SCU)** through the deployment of suitable sulphur-coating technologies. The initiative is aimed at enhancing the efficiency of nitrogen utilization, reducing nitrogen losses, ensuring balanced nutrient application, and improving overall soil health and crop productivity.

With the above intent, Technology provider/ OEM/ Implementation agencies is hereby invited from the interested entities for discussion/ presentation/ demonstration on their Technologies/ capabilities for setting up the Sulphur Coated Plants in India.

Tentative Contents of presentation and discussion for establishing the suitable credentials

This should include but not limited to following:

1. Introduction of Interested Entity and its tentative role in the given objectives.
2. Details regarding proposed technologies, process description, feedstocks and utilities along with major equipment list including proprietary items
3. Proposed Project Configuration and Economic operating/ designed Capacities
4. Development Model in Existing Ammonia Urea Complexes in India.
5. Tentative Schedule for setting up of facilities leading to production of Sulphur Coated urea.

6. Proposed capacity and its estimated capital cost & levelized cost
7. Estimated requirement of power, water, Sulphur, Steam & Coating agents.
8. Land requirement and infrastructure requirements.
9. Any other information to establish the credentials relevant of proposed technology & guarantees.

Confidentiality Agreement:

Information submitted by interested entities may be used by DoF / designated agency by DoF for feasibility assessment and future scheme design. Information shared shall imply consent for such use. Proprietary information should be clearly identified by the respondent. If desired, an NDA shall be executed with the party.

Tentative Schedule

Date of Issue of invitation	16.09.2026
Proposed date for Presentation and discussion	24.09.2026 and 25.09.2026 <i>[For queries (if any) following personnel may please be contacted during working hours: Mr Narendra Singh: 9958791062 Mr Digvijay Verma: 9310230644 Ms. Minakshi Shahi: 9717363705]</i>
Time for presentation	Time allocated for discussion with each party shall be intimated through e-mail.
